

Own Your Digital Relationships

In most credit unions today, digital experiences are fragmented across channels, products, and systems. Savana brings them together into one unified experience.

Digital Account Opening
Retail and commercial online and mobile onboarding with configurable products and workflows.

Channel Continuity
Seamless movement between self-service and assisted banking without restarting the relationship

Digital Banking
Secure, modern online and mobile banking across devices.

Complete Configurability
Control branding, product setup, workflows, and member interactions.

Customer Experience at a Glance

From first application through ongoing banking, members manage their full relationship in one continuous experience.

- ✓ Single authentication from onboarding through online and mobile banking
- ✓ Instant application, funding, and account activation
- ✓ Assisted teams see the same activity and context
- ✓ Advanced authentication, fraud prevention, and compliance controls

Designed for Scale, Control, and Integration

Savana Customer Experience provides comprehensive digital banking and account opening designed to operate inside your institution, with full control, multi-brand flexibility, and deep ecosystem integration.

Digital Banking & Account Opening

Retail and commercial digital onboarding and online banking delivered with single authentication and seamless continuation across digital and assisted channels.

Institutional Ownership & Control

Operate on a single code base with full access to source code, giving your institution direct control over branding, configuration, and digital experience.

Multi-Brand Relationship Management

Launch and manage multiple digital brands under one operational model while maintaining full visibility into member relationships across brands.

Core & Ecosystem Integration

Real-time integration with core systems and embedded third-party services, including payments, identity, KYC/KYB, funding tools, and much more – orchestrated as part of the digital journey.

Part of the Full Member Relationship

Savana Customer Experience is not just another digital layer. It operates on the same processes and data that power your credit union, giving your teams visibility into digital activity and members continuity across channels.
